

XiFin | THE POWER
TO DO GOOD®

QUICK REFERENCE GUIDE: **XiFin® EMPOWER RCM – PHARMACY ESSENTIALS**

Is Your Pharmacy Ready to Drive Medical Billing Revenue?

If you want to increase reimbursements on medical claims, improve collection rates, and maximize your revenue opportunities, then you need XiFin Empower RCM – Pharmacy Essentials on your side.

How Does XiFin Empower Your Pharmacy?

Empower RCM – Pharmacy Essentials is a medical billing solution that is purposely designed to drive medical billing success for pharmacies.

End-to-end Processing

Claim processing for products or services covered under the medical benefit. XiFin provides medical billing, denial management, payment posting, reconciliation and audit processes.

Submission Assurance

Improve collection rates, reduce rejections, and receive faster, more reliable reimbursement by leveraging medical billing capabilities that ensure your claims meet payor policy and submission requirements.

Seamless Integration

XiFin uses the NCPDP* standard within pharmacy workflows to help reduce administrative burden and friction when submitting claims for clinical services, immunizations, durable medical equipment (DME), medical supplies, and select specialty drugs** covered under the medical benefit.

Clinical Care Documentation

When used in combination with XiFin's guided clinical documentation capability, pharmacies gain the unique ability to capture and add clinical notes needed for specific types of medical claims. Our solution supports over 30 therapeutic classes and most pharmacy-provided clinical services.

* NCPDP is a registered mark of the National Council For Prescription Drug Programs

** Specialty drugs processed include oral anti-cancer, immunosuppressive, and respiratory medications

What Makes XiFin's Technology Different?

Empower RCM – Pharmacy Essentials is powered by a robust rules engine that helps you rev up your medical billing cycle.

Real-time Eligibility

We are connected to Medicare, Medicaid, and hundreds of commercial payors.

Trusted Dependability

Our technology helps more than 30,000 pharmacies nationwide optimize reimbursement on medical claims.

Proven Scalability

The biggest pharmacies in the country trust us to process their ever-increasing volume of medical benefit claims.

Complete Coverage

Our 98% collection rate helps pharmacies see an improvement in cash flow. "SOLD Date" functionality ensures the service date matches the claim submission date to reduce discrepancies that can trigger claim denials or audits.

XiFin Empower RCM is the solution pharmacies can rely on to submit medical claims that meet payor policy and submission requirements. We can help you automate medical billing and reduce administrative burdens so you can focus on delivering clinical care and growing your pharmacy business.
